TECHNICAL SKILLS

- JAVA
- SQL
- HTML
- CSS
- JAVASCRIPT
- C (PROGRAMING)
- C++ (PROGRAMING)

PROJECTS

Swag Of India

Fully functional e commerce website

- Proper products presentation is there in the website where I have added so many functionalities in order to achieve different kinds of outputs.
- Firstly, sign-in interface will be opened when any customer reaches the website here with e mail or phone and with password credentials, he can access his account and can start shopping.
- Here I have added add to Cart functionality as well as add to Wishlist functionality from which one can save the liked product and can purchase that product after sometime also.
- For making the payments online and cash on delivery methods, both the method are convenient and easy to use as well as the levels of security is very high.
- Using keys : Html, css and JavaScript.

Portfolio

It is fully based on the frontend development

- This website is totally based on frontend development.
- Using keys - Html, CSS, JavaScript To make a proper portfolio about myself.

Contact Management System

It the represent the manage contact data using c programming,

- This project is to manage all the contact data and perform the operation.
